

UZ ENERGY LIMITED

Warranty for Power Lite Series Battery System

(For international markets, excluding Australia, ONLY)

UZ ENERGY LIMITED WARRANTY

The basic Limited Product and Limited Performance Warranty period for Power Lite L051100-A/A1/B/D is 5 years and 10 years, respectively.

Limited Product Warranty

UZ ENERGY LIMITED (referred to as “UZ ENERGY” in this document) warrants that the hardware of electronics and enclosure (including battery cover, enclosed micro circuit breaker if applicable, BMS PCBA) will be free of defects caused by improper workmanship or defective materials, and it will start from the date of commissioning, defined by the date of the system providing power to loads, to be submitted in writing by the customer, but no later than 6 months after the invoice date as issued by UZ ENERGY. If the buyer is unable to provide adequate documentation of the Purchase (Invoice), the warranty start date shall be 6 months after the product is Manufactured.

Limited Performance Warranty

UZ ENERGY warrants that the battery system retains either Seventy Percent (70%) of Designed Energy for Ten (10) years, or for a Minimum Throughput Energy which is calculated from the earlier one of installation date or 6 months after battery system production date, whichever comes first.

Model No.	Designed Energy (kWh)	Average Usable Energy (kWh) ¹	Minimum Throughput Energy (MWh) ²
Power Lite L051100-A/A1/B/D	<u>5.12</u>	<u>4.47</u>	<u>16.32</u>

¹: 90% DoD with 97% Round Trip Efficiency. Usable Energy (kWh) is measured by following the testing conditions and methods in Appendix A

²: In 5 years, the total yield energy calculated based on Usable Energy, and the number is calculated based on condition @ T=25 deg C, 0.5C/0.5C charging and discharging, roughly 1 cycle per day.

PRECONDITIONS FOR WARRANTY

- 1) The defect of the battery system shall occur within the battery system warranty period as determined above.

- 2) Any battery system failure, fault or warning which leads to system not working or working abnormally, must be reported by following the terms described in 'HOW TO MAKE A CLAIM UNDER THE UZ ENERGY WARRANTY' within two weeks of occurrence.
- 3) The battery system shall be installed or operated or maintained by a skilled person or 3rd party installer certified by UZ ENERGY.
- 4) End User shall correctly operate and use the battery system according to the User Manual and Installation Guide.
- 5) End User shall provide the proof of the original purchase of the battery system.
- 6) The installation of the Battery System for the End User shall be completed within a maximum of 6 months from the Invoice Date. The direct customer to UZ ENERGY shall inform their UZ ENERGY contact sales person via email once installation and commissioning are completed.
- 7) The charging temperature of the battery system must NOT exceed 0°C~50°C and the discharging temperature of battery system must NOT exceed -20°C ~ 50°C, and shall not be exposed in an installed area to direct sunlight. The Battery system installation location must be ventilated in accordance with the requirements of User Manual and Installation Guide.
- 8) This Warranty covers a capacity equivalent to one full cycle per day. The Battery system is not suitable for supplying life-sustaining medical devices or automotive application.
- 9) The battery system shall be installed with inverters which are listed in UZ "**Power Lite Wiring and Settings Examples**" document. If you want to use any other inverter, please check with UZ ENERGY to make sure it's compatible in advance.
- 10) It is required that all Battery Systems have internet connection for monitoring. For those Battery Systems that failed to meet this condition, UZ ENERGY Warranty for Battery System may become null and void beyond the minimum legal warranty requirements.
- 11) The End User shall register and connect the battery to the "**UZ Portal**" within a maximum of 30 days after the first installation. If this is not done or not possible, another means of battery monitoring shall be made accessible to UZ ENERGY. Failure to do so will result in this warranty becoming null and void beyond the minimum legal warranty requirements.

HOW TO MAKE A CLAIM UNDER THE UZ ENERGY WARRANTY

If the claimant wants to make a warranty claim, please contact your local distributor where you purchased the battery system from, or the installer who installed the battery for you. If the claimant was unable to obtain service from them, or was NOT satisfied with their service, the claimant can escalate your service request to UZ ENERGY. Please note, in order to deliver a friendly and timely service, UZ ENERGY is cooperating with many of our distributors and installers all over the world. As such, please treat them as the default service channel and use these service channels to make your warranty claim.

UZ ENERGY will support and audit our service channel to ensure that we deliver a good service to our customers. Please have the following information to hand as it may be required when contacting the local distributor.

Please have the following information to hand as it may be required when contacting the local distributor:

- 1) Contact information of claimant, including name of the person, name of the company, phone number, email address and shipment address.
- 2) Information regarding all defective battery system, including model No., serial number, installation date and failure date. Please make the claim within one month from the failure date, otherwise UZ ENERGY will treat it as you have abandoned the right to make a warranty claim.
- 3) Installation information, including brand, model, and number of PV panels.
- 4) Error message on APP screen (if applicable) and additional information regarding the fault/error.
- 5) Description of actions before the failure and detailed information of previous claims (if applicable).
UZ ENERGY may arrange an on-site inspection to find out the root of the faults. The claimant is responsible for granting access, making time, and ensuring the safety of the inspection by a technician from UZ ENERGY or an authorized third-party company. UZ ENERGY reserves the right not to enter the site should the UZ ENERGY technician consider it unsafe to do so.

REMEDY

If a claim is received within the warranty period and a fault with the battery system is discovered that is covered under the warranty, UZ ENERGY may, at its sole discretion, elect to

- 1) Fix the issue by changing configurations or updating software.
- 2) Repair the battery system by replacing it with spare parts.
- 3) Exchange the battery system for a battery system that is brand new or refurbished but at least functionally equivalent to the original battery system, or an upgraded model which is either functionally equivalent or functionally superior to the original battery system. If the device is replaced within the warranty period, the remaining warranty period will be automatically transferred to the replacement unit. If the remaining warranty period is less than one year after the replacement, it will be extended by a 6 month warranty. For every single battery system replacement case, the claimant must gather the necessary information and send the RMA report (by following UZ ENERGY's RMA template) to UZ ENERGY to confirm the RMA request, prior to the battery system being exchanged.

If it is necessary for the battery to be shipped to UZ ENERGY for repair or replacement, the direct customer of UZ ENERGY shall bear the shipping costs. UZ ENERGY shall pay the shipping costs for returning the replacement or repaired battery to the installation site. Any customs duties shall be payable by the receiving party.

RMA Template

Product Model	Serial Number	Invoice Date/No.	Installation Date	Installer	Remark
e.g. Power Lite L051100-A1					e.g. Problem Description

- 4) If it is proven that the problem was caused by faulty installation, UZ ENERGY reserves the right to contact the original installer and request that they provide a solution to fix the issue before UZ ENERGY’s intervention and may charge the subsequent cost to the original installer if they fail to provide a proper solution to fix this issue.
- 5) All parts of the battery system that are replaced by UZ ENERGY shall become UZ ENERGY’s property. If the battery system is found not to be covered by this Limited Warranty, UZ ENERGY reserves the right to charge a handling fee.

WHAT IS COVERED AND NOT COVERED?

Unless a special/unique agreement exists between UZ ENERGY and the customer, the UZ ENERGY limited warranty covers only the cost of hardware material required to get the device functioning again. All other costs including but not limited to compensation from direct or indirect damages arising from the defective device or other facilities of the PV system, or loss of electrical power generated during the battery system downtime are NOT covered by the UZ ENERGY limited warranty.

WARRANTY EXCEPTIONS

The following circumstances may cause device defects but are NOT covered by UZ ENERGY’s limited warranty.

- 1) Normal wear and tear (including, without limitation, wear and tear of batteries).
- 2) Any defects that occur when the battery system warranty period has expired (excluding additional agreements of warranty extension).
- 3) Faults or damages due to faulty installations or operations, maintenance carried out against UZ ENERGY instructions by an unauthorized installer. Unauthorized wiring or use with faulty or incompatible devices. Any changes to the installation not done in accordance with the Installation Guide. Usage which does not comply with the safety regulations (VDE, IEC, etc.). Damage or defect caused by End User’s improper use, misuse, abuse, which non-conforming with User Manual.

- 4) Damage caused by End User deliberately or by willful act.
- 5) Disassembly, repair, or modifications performed by a third-party company/person not authorized by UZ ENERGY. Battery system modifications, design changes or part replacements not approved by UZ ENERGY.
- 6) Faults or damages due to unforeseen circumstances, man-made factors, or examples of force majeure including but not limited to stormy weather, flooding, pests, inappropriate handling, misuse, neglect, fire, water, lightning, or other acts of nature.
- 7) Vandalism, engraving, labels, irreversible marking or contamination or theft.
- 8) Faults or damage caused by other factors not related to battery system quality issues.
- 9) Any rust that appears on the device's enclosure caused by harsh environmental conditions, accidents, and external influences. Faults or damage caused by exposure to seacoasts/saltwater or other aggressive atmospheres or environmental conditions without UZ ENERGY's written confirmation/approval prior to the installation.
- 10) Damage caused during transport, incorrect product installation, removal, exceedance of temperature range during use and improper use.
- 11) End User fails to provide correct product serial number or product serial number is undecipherable or has been modified without permission by UZ ENERGY.
- 12) Defects of Product arise due to renewal of the national or regional laws or regulations.
- 13) Product failure is not reported to UZ ENERGY within one month of appearance.

Any previous warranty agreements are superseded by this agreement and become null and void as a result.

OUT OF WARRANTY CASE

Any defects that occur after the expiry of the warranty period, or which occur within the warranty period, but which falls into the warranty exceptions conditions above, are known by UZ ENERGY as out-of-warranty cases. For all out-of-warranty cases, UZ ENERGY may charge an on-site service fee, a parts fee, labor costs and a logistics fee to customer, including any/all of:

- 1) On-site service fee: cost of travel and time for the technician to deliver on-site service and labor cost for the technician, who is repairing, performing maintenance on, installing (hardware or software) and debugging the faulty battery system.
- 2) Parts/materials fee: cost of replacement parts/materials (including any shipping/admin fee that may apply).
- 3) Logistics fee: cost of delivery and any other expenses incurred when defective battery systems are sent from the user to UZ ENERGY or/and repaired battery systems are sent from UZ ENERGY to the user.

GEOGRAPHICAL SCOPE

This UZ ENERGY Limited warranty terms and conditions only apply for the devices which are originally purchased from channels authorized by UZ ENERGY and installed in the destination defined within the international markets without the People's Republic of China and Australia (means excluding the region of China mainland, Regions of Hong Kong, Macao and Taiwan, Australia), unless there are specially stipulated warranty terms and conditions between UZ ENERGY and the direct purchaser. For any units sold into one country/region, but installed in another country/region, the warranty will become invalid if UZ ENERGY does not provide written confirmation/approval prior to the installation.

GOVERNING LAW AND JURISDICTION

This limited warranty, and all matters arising out of or relating to this limited warranty, shall be construed and governed by the laws of the People's Republic of China and each party agrees to submit to the exclusive jurisdiction of, and venue of the courts of the People's Republic of China where UZ ENERGY is.

LIMITATION OF UZ ENERGY'S LIABILITY

This limited warranty applies to the battery system which is sold and installed after Aug. 30, 2021. It is the end user's sole and exclusive remedy against UZ ENERGY and UZ ENERGY's sole and exclusive liability in respect of defects in battery system. This limited warranty replaces all other UZ ENERGY warranties and liabilities, whether oral, written, (non-mandatory) statutory, contractual, in tort or otherwise, including, without limitation, and where permitted by applicable law, any implied conditions, warranties or other terms as regards satisfactory quality or fitness for purpose. However, this limited warranty shall neither exclude nor limit any of your legal (statutory) rights under the applicable national laws. To the extent permitted by applicable law(s), UZ ENERGY does not assume any liability for any loss of, damage to or corruption of data, for any loss of profit, loss of use of battery systems or functionality, loss of business, loss of contracts, loss of revenue or loss of anticipated savings, increased costs or expenses or for any indirect loss or damage, consequential loss or damage or special loss or damage, or punitive loss or damage. To the extent permitted by applicable law, UZ ENERGY's liability shall be limited to the purchase value of the battery system. The above limitations shall not apply in case of gross negligence or intentional misconduct of UZ ENERGY or in case of death or personal injury resulting from UZ ENERGY's proven negligence.

*Manufacturer's limited warranty is a basic warranty promise from UZ ENERGY to the end users. In some countries/districts, end users may receive an additional warranty promise (should be at least equivalent to the manufacturer's warranty) which is provided by UZ ENERGY local distributor; should any claims arise in this respect, please direct them to the local distributor. Please note this UZ ENERGY limited warranty statement may NOT be the latest version, please confirm with UZ ENERGY before signing this warranty letter.

Appendix A

Designed Energy measurement condition:

Ambient temperature: 25 ~ 28°C

Charge / Discharge method:

- 1) Discharge the battery with constant current until the battery reaches end of discharge voltage or battery self-protection automatically.
- 2) Lay aside the battery for 10 mins.
- 3) Charge the battery with constant current and constant charge voltage until battery self-protection automatically.
- 4) Lay aside the battery for 10 mins.
- 5) Discharge the battery with constant current until reach end of discharge voltage or battery self-protection automatically. Calculate discharged capacity. Monitor current timely. (If it's constant current.)
- 6) Calculate formula: Current Capacity = Discharge time × Constant current value.
- 7) Charge the battery with Constant current and constant charge voltage until battery self-protection automatically.

*

Product Type	End of Discharge Voltage	Constant Charge Voltage	Constant Current
Power Lite L051100-A/A1/B/D	46 V	58 V	50 A
